[G.O. Ms. No. 2230, Law (General)]

No. 439.—In exercise of the powers conferred by section 27 of the Court Fees Act, 1870 (VII of 1870), and all other powers thereunto enabling and in supersession of the rules published with Judicial Department Notification published at pages 404-405 of the *Fort St. George Gazette*, dated 28th February 1872, the Governor in Council is hereby pleased to make with effect from 1st July 1932 the following rules for regulating the use of stamps in payment of fees chargeable in the Court of Small Causes, Madras :—

RULES.

I. (a) Stamps required in payment of fees in the Court of Small Causes, Madras, shall be supplied by the party liable to pay such fees.

Mode of using stamps.

(b) There shall be affixed to every plaint stamps of the value equivalent to the fees payable thereon.

(c) Any party requiring the issue of any warrant, subpœna, second summons or any other process not being original summons shall produce an application in writing entitled in the cause or matter to which it relates and shall affix thereto stamps of the value equivalent to the fee payable for such process. Such application shall state briefly the nature of the process required and shall be filed in the appropriate office of the Court.

Number of stamps.

II. In order that the contents of a document may not be defaced or obscured, the stamp affixed to it shall be of an amount corresponding, as nearly as practicable, with the amount of the stamp which such document requires. It shall be in the discretion of the Head Clerk or other officer empowered by the Chief Judge to receive plaints and other documents, to refuse to accept any plaint or document which bears an unnecessary number of stamps.

Provision for sale of stamps.

III. Stamps will be sold by a salaried vendor appointed for the purpose, in a stall or office situate within the premises of the Court and also by all other licensed vendors authorized to sell Court-fee stamps. The salaried vendor's stall or office shall be open daily for the sale of stamps on all days (except on such days as the Court shall not be sitting) between the hours of 10 a.m. and 5 p.m.

IV. (1) A bound register in the appended form called the "refund certificate book" shall be maintained in each of the courts. The Bench clerk of the Court ordering refund of half cost shall prepare without delay the refund certificate. Such certificate shall, after being checked and signed by the Head Clerk and the Registrar (or a Judge) be delivered to the party concerned by a clerk of the Court. Such clerk shall maintain a register showing the delivery of the refund certificates of all the courts and he shall forward the duplicate of every certificate delivered to the salaried vendor.

(2) The amount mentioned in such refund certificate shall be paid to the party concerned by the salaried vendor who shall be provided by the local Government with a permanent advance for the purpose.

(3) The salaried vendor shall, from time to time, draw from the Deputy Collector of Madras the amount paid on refund certificates on delivering to him the certificates so paid and such certificates shall be kept by the Deputy Collector as vouchers for the amount disbursed by him to the salaried vendor.

PRESS COMMUNIQUÉ.

Stanthorne Hall, Ootacamund, May 30, 1932.

[Madras Motor Vehicles Taxation Act, 1931.]

No. 893.—In order that the public may be acquainted with the terms of the amendment to the above Act made by the Legislative Council on the 23rd of March 1932 the following Communiqué is published for general information:—

The amending Act (called the Madras Motor Vehicles Taxation Amendment Act, 1932) will come into force from 1st June 1932.

At present all motor vehicles kept or used in the Presidency of Madras are liable to tax under the Act as now in force. It has been represented that this works hardship in the case of owners of vehicles which make no use temporarily or permanently of the public roads. The Act has been therefore so amended as to make user of the public roads the criterion of liability to tax.

Under the Act as amended the licence granted in respect of a motor vehicle must be carried in a conspicuous place on the vehicle in the manner prescribed. The manner in which it is to be carried is shown in the appendix to this communiqué. If such licence is not so carried, the registered owner or the person having possession or control of the vehicle is liable to be punished with a fine which may extend to fifty rupees. Police officers in uniform will be empowered to stop motor vehicles for the purpose of checking and ascertaining whether they possess a current licence or not. Any person failing to stop a motor vehicle when required to do so by the Police officer or resisting such officer will render himself or herself liable to a fine which may extend to fifty rupees.

The exemption from payment of tax in respect of motor vehicles which have been kept or used in the Presidency for less than fifteen days in a quarter will now disappear from the Act, and no vehicle will be allowed to make use of a public road without a current licence displayed as prescribed. Provision is, however, made for the grant of a licence for one month at a time. It is not proposed to issue monthly licences but an owner desirous of licensing his car for a period consisting of one month or two consecutive months in a quarter will be permitted to do so on payment on the following scale:—

For the first month in the quarter.	Payment of tax for the quarter of which three-fifths will be refunded on application if the licence is returned at the end of the month.
For the second month.	Payment of tax for the quarter of which three-fifths will be refunded on application if the licence is returned at the end of the second month.
For the first and second months.	Payment of tax for the quarter of which one-fifth will be refunded on application if the licence is returned at the end of the second month.
For the second and third months.	Payment of tax for the quarter of which one-fifth will be refunded on application if the licence is returned at the end of the third month.
For the third month only.	Payment of tax for the quarter of which three-fifths will be refunded on application if the licence is returned at the end of the month.

No refunds will be made for portions of a month, but only for a complete period of one, two or more months, nor unless the licence is returned on or before the day next to that of the expiry of the licence.

It is notified for general information that for the convenience of the public the number of licensing officers has been increased, and the tax may now be paid into the sub-treasury even where there is a branch of the Imperial Bank so that tax can be paid and licence obtained at the same place, and not as hitherto at two different places.

APPENDIX.

(*a*) In the case of motor cycles (including motor scooters), motor cycles with trailor, tricycle and invalid carriages—

in a conspicuous position on the near side of the vehicle in front of the driving seat;

(*b*) In the case of motor cycles with side car—

on the near side of the handle-bar of the cycle or the near side of the combination in front of the driving seat; and

(c) In the case of all other vehicles (except when placed on or adjacent to the wind screen as hereinafter provided)—

On the near side of the vehicle facing toward the near side of the road and not less than 2 feet 6 inches nor more than 6 feet 6 inches from the ground level between two parallel lines, the first drawn vertically through the rearmost part of the driving seat or cab (or where no such fitting exists, the foot plate), and the second drawn vertically 6 inches in front of the base of the front glass wind-screen where fitted, or where no such wind-screen is fitted, through a point 4 feet forward of the first line:

Provided that in the case of a vehicle fitted with a front glass wind-screen extending across the vehicle to the near side, the licence may be carried facing forwards on the near (left) lower corner of the glass of such wind-screen or within 2 inches of the glass either in front or behind it and so as to be clearly visible from in front at all times by daylight whether such vehicle is moving or stationary. In the event of the licence being carried actually upon a glass portion of the vehicle and otherwise complying with this rule, the obligation that it shall be carried in a metal holder with a transparent glass cover shall not be enforced if it is carried in a weather-proof licence container.

The licence shall be placed and carried (except when placed on or adjacent to the wind-screen as hereinbefore provided) so as to be clearly visible at all times by daylight to a person standing at the near side of the vehicle, whether such vehicle is moving or stationary.

Form of holder for the licence.—The holder shall be of metal, and weather-proof. It shall be either circular or rectangular with crossbars, and conform to the following dimensions:—

Type A—Circular pattern, without crossbars—Licence tray.—The licence of standard pattern, when cut along the outline of the outer of the two circles, shall fit neatly into a sheet metal tray of suitable thickness, having a turned up edge of sufficient depth to hold the licence and a stout cover of transparent white glass.

Ring cover.—A circular ring of sheet metal shaped to fit down closely on to the tray, and adapted for fixing by screws, bolts, or otherwise, to the vehicle in the prescribed position. A rubber packing ring shall be arranged to fit between the ring cover and the cover glass and tray so as to render the whole carrier weather-proof.

Dimensions.—The aperture within the ring cover shall clearly exhibit the whole of the licence lying within the inner circle of the licence, and shall have a diameter of 2$\frac{1}{4}$ inches.

Type B.—Rectangular pattern, with cross bars—Licence tray.—A sheet metal tray of suitable thickness, having a turned up edge all round of a depth sufficient to hold the full size standard licence (3$\frac{7}{8}$ inches long and 3$\frac{9}{32}$ inches wide) and a stout cover of transparent white glass.

Cover frame.—A cover frame, formed out of sheet metal, shall be shaped to fit down closely on to the licence tray, and adapted for fixing by screws, bolts, or otherwise, to the vehicle in the position previously described.

A rubber packing ring shall be arranged to fit between the cover frame and the cover glass and tray, so as to render the whole carrier weather-proof.

Dimensions.—The main aperture within the cover frame should be 3$\frac{1}{4}$ inches long and 3$\frac{1}{16}$ inches wide, and be bisected axially by two bars intersecting at right angles, so as to leave four rectangular openings, each 1$\frac{3}{4}$ inch long and 1$\frac{13}{32}$ inches wide, clearly exhibiting the licence.

No 694—

In exercise of the power conferred by clause (c) of sub-section (i) of section 5 of the Madras Motor Vehicles Taxation Act, 1931 (Madras Act III of 1931), the Governor acting with Ministers is hereby pleased to notify that tax will be collected and refund made at the following rates in respect of motor vehicles which do not use the roads during the whole of a quarter or a continuous part thereof not being less than one calendar month:—

(i) For using the vehicle in the first month of a quarter—Tax for the whole quarter should be paid, of which three-fifths will be refunded on the surrender of the licence, at the end of the month, to the Commissioner of Police in the City of Madras or the Licensing Officer in the mufassal.

(ii) For using the vehicle in the second month of a quarter—Tax for the whole quarter should be paid, of which three-fifths will be refunded on the surrender of the licence, at the end of the month, to the Commissioner of Police in the City of Madras or the Licensing Officer in the mufassal.

(iii) For using the vehicle in the first and second months of a quarter—Tax for the whole quarter should be paid, of which one-fifth will be refunded on the surrender of the licence, at the end of the second month, to the Commissioner of Police in the City of Madras or the Licensing Officer in the mufassal.

(iv) For using the vehicle in the second and third months of a quarter—Tax for the whole quarter should be paid, of which one-fifth will be refunded on the surrender of licence, at the end of the quarter, to the Commissioner of Police in the City of Madras or the Licensing Officer in the mufassal.

(v) For using the vehicle in the third month of a quarter—Tax for the whole quarter should be paid, of which three-fifths will be refunded on the surrender of the licence, at the end of the quarter, to the Commissioner of Police in the City of Madras, or the Licensing Officer in the mufassal.

No refund will be made unless the licence is surrendered on or before the day next to that on which it expires. Portions of a month will be treated as one month for the purpose of the grant of refunds.

Fort St. George, May 31, 1932
(G.O. P. No. 1177, P.H.).

No. 901.—The following draft of certain rules regarding the action to be taken in combating epidemics of cholera in local board areas which the Governor acting with Ministers proposes to make in exercise of the powers conferred by sub-section (1) of section 132 of the Madras Local Boards Act, 1920 (Madras Act XIV of 1920), is hereby published, as required by clause (a) of section 200 of the said Act, for general information. Notice is hereby given that the draft will be further proceeded with after six weeks from the date of publication of this notification and that any objection or suggestions which may be received with respect thereto before the expiry of the period aforesaid, will be considered by the Governor acting with Ministers.

Draft rules

1. In these rules, 'Cholera Inspector' means—

'(a) the Health Inspector of the range; or

(b) any qualified medical practitioner, sanitary inspector or first-class vaccinator appointed or posted for cholera work.

2. (i) On the outbreak or threatened outbreak of cholera in the district the District Health Officer shall submit to the president of the district board a scheme for preventing the spread of cholera specifying therein in detail the preventive measures necessary and the staff that should be employed for the purpose.

(ii) The president of the district board shall be responsible for carrying out such measures. Any difference of opinion which may arise between the president and the District Health Officer regarding any such measure shall be referred to the Director of Public Health for decision and his decision thereon shall be final.

(iii) The president of the district board may, in exercise of the emergency powers conferred by section 22 of the Act, appoint the special staff and provide the funds necessary for giving effect to the recommendations contained in the scheme submitted by the District Health Officer. The District Health Officer shall have direct control over the staff so employed.'

3. (i) The District Health Officer and the Health Inspectors shall submit timely indents for medicines, disinfectants and appliances. The president of the district board shall arrange to supply to the District Health Officer and Health Inspectors, the medicines, disinfectants and appliances which should be kept in stock by them and shall replenish such stock as often as may be necessary.

(ii) (a) The following medicines, disinfectants and appliances shall be kept in stock by every Health Inspector:—

Tincture Iodine	0 lb.
Anti-cholera vaccine	250 doses.
Sahay tablets	500.
Distilled water	5 gallons.

4. (i) On the outbreak or threatened outbreak of cholera, the Medical Officer in charge of the Government or local board hospital or dispensary shall, on requisition from the Cholera Inspector, treat cholera patients and carry out anti-cholera inoculations in villages within a radius of five miles from his headquarters. Such medical officer shall pending the arrival of the Cholera Inspector carry out as far as possible all emergent measures for preventing the spread of cholera.

(ii) Registered Medical practitioners who are in charge of rural dispensaries or who are private practitioners may also be employed for the purposes mentioned in sub rule (1) on the payment of such fees and allowances as may be fixed by the Local Government.

(iii) The President of the District Board shall afford all facilities to the District Health Officer for carrying out anti-cholera inoculations. The District Health Officer shall arrange for the distribution of the anti cholera vaccine supplied by the King Institute, Guindy, to the inoculation staff.

(iv) Medical officers entrusted with the work of inoculating contacts and others with anti cholera vaccine shall maintain, in such form as the Director of Public Health may determine, accurate records of all cases inoculated and treated by them. Such records shall be open to inspection by the inspecting officers.

5. On the first occurrence of cholera in any range in the district, the District Health Officer shall immediately notify the occurrence—

(a) to all the Municipal Health Officers and Health Inspectors in the District; and

(b) to all the District Health Officers and Municipal Health Officers in the adjoining districts.

6. (1) On the first occurrence of cholera in a village, the village headman shall immediately send a report of the occurrence by telegram or by special messenger to the Tahsildar and the Cholera Inspector concerned. He shall thereafter send daily reports to the Tahsildar of the number of attacks of and deaths from cholera in the village until the village is free from infection.

(2) Pending the arrival of the Cholera Inspector in the village, the village headman shall arrange:—

(a) for the isolation and treatment of persons attacked by cholera;

(b) for the disinfection and disposal of all infected matter;

(c) for the cleaning of the infected locality and surroundings and

(d) for the guarding of water supplies in accordance with the instructions contained in the Village Officers' Manual.

7. The Cholera Inspector shall visit the village as expeditiously as possible and take all such measures as are necessary for preventing the spread of the disease and he shall leave with the headman of the village a sufficient quantity of medicines, disinfectants and appliances with instructions as to their use.

The Cholera Inspector shall revisit the village as often as may be necessary till the village is free from infection.

8. (i) All cholera cases shall be removed to an isolation hospital if there is one in the neighbourhood. If it is found that the removal of a case to an insolation hospital is not possible or if there is no such hospital in the neighbourhood, the Cholera Inspector shall take steps to isolate the patient in the most suitable part of the house and shall make the necessary arrangements for the prompt collection and effective disposal of all infected matter.

(ii) Immediately after a case of cholera has been removed to an isolation hospital or has been properly isolated in the house itself, the Cholera Inspector shall disinfect the whole house and furniture, special attention being paid to the room or place previously occupied by the patient. All latrines and drains within the curtilage and those which discharge into the open outside the house shall also be thoroughly disinfected. If any discharges have been raided up the ground, the earth shall be freely soaked with disinfected lotion and then covered with fresh earth.

(iii) In cases of house isolation the Cholera Inspector shall leave a sufficient quantity of disinfectant at the infected house with necessary instructions as to its use for the disinfection of the patient's evacuations, soiled linen and the drains, etc.

(iv) Every conveyance used for the removal of a patient to the isolation hospital shall be thoroughly washed and disinfected before it is discharged. The hire, if any, for the conveyance shall be paid from the district funds.

9 Rags, mats, bedding, linen and such other articles of small value as have been soiled with the vomit or excreta of the patient shall be immediately burned, full compensation in money or in kind being paid from the district funds. Cloths shall be soaked in cresol lotion (1 in 200) for twenty minutes and subsequently steam disinfected or boiled for half an hour. Utmost care shall be taken to prevent infected clothing, bedding, utensils, etc., being washed in or near any source of water supply or sent to a dhobi before being disinfected.

10. The Cholera Inspector shall as far as possible prevent the contamination of all sources of water-supply. All wells and tanks in the infected village shall be chlorinated at frequent intervals till the village is free from infection. He shall also attend to the sanitation of the village and rectify all remediable defects.

11. Disinfection work shall be carried out under the personal supervision of the Cholera Inspector and shall not be entrusted to the menial staff.

12. The Cholera Inspector shall, within twenty-four hours of his visit to the village, submit a report to the District Health Officer in the form in Annexure II. The Cholera Inspector shall, till the village is free from infection, submit weekly reports of the progress of the epidemic within his jurisdiction to the District Health Officer who shall consolidate the reports of the various Cholera Inspectors in the district and forward the same with his remarks to the Director of Public Health. The Cholera Inspector shall maintain in regard to the progress of the epidemic such records, maps and charts as may be determined by the Director of Public Health from time to time.

13. (i) If cholera breaks out in an epidemic form the District Health Officer shall submit a special preliminary report to the president of the district board and send a copy thereof to the Director of Public Health with as little delay as possible.

(ii) The president of the district board shall send copies of such preliminary report with his remarks, if any, to the Director of Public Health and the Collector.

(iii) The District Health Officer shall, by prompt visits to as many infected villages as possible and from the reports received by him under rule 12, keep himself informed of the progress of the epidemic. He shall also carefully investigate the causes of the outbreak.

14 The District Health Officer shall also maintain such records, maps and charts as may be determined by the Director of Public Health from time to time.

15 The District Health Officer shall submit a quarterly report to the president of the district board and the Director of Public Health on the progress of infection in the district.

16 The District Health Officer shall, within one month after the occurrence of the last case of cholera, submit a final report on the epidemic to the president of the district board and submit a copy thereof to the Director of Public Health. The president of the district board shall without delay submit the report with his remarks to the Local Government through the Collector and the Director of Public Health and also send a copy of his remarks to the District Health Officer for his information. The report shall describe the salient features of the epidemic and also contain a succinct account of the measures taken to combat it and the suggestions, if any, for future adoption.

17 A village may be considered free from the infection of cholera if no case of cholera occurs for ten days after the last attack.

ANNEXURE I.

PRECAUTIONS TO BE OBSERVED ON THE APPEARANCE OF CHOLERA.

A.—Habitations.

1. Every house must be daily cleansed of all sweepings, refuse and dirt of every description; filthy water, manure, washing from cattle sheds and stables, etc, must be completely removed.

2. All damp and foul earth should be removed and replaced with clean dry earth.

3. The interior and exterior of houses should wherever possible be whitewashed. If persons cannot afford to whitewash the outside walls, the inside ones at least should be whitewashed. In the case of the indigent poor, the Cholera Inspector should undertake this work as a part of the disinfection work.

4 Doors and windows should be always kept open in order to ensure free ventilation.

5. All rags, torn mats, gunny bags, old baskets and such other articles of insignificant value should be destroyed by burning. Windows and other apertures for light and ventilation should not be blocked up or screened over.

6 All latrines, urinals and house drains should be thoroughly cleansed every day and flushed with cresol (1 in 200) or other disinfectant lotion.

7. The contents of cess pools and soak pits or ash-pits should be emptied daily.

8 The surroundings of every house should be maintained in a scrupulously clean condition.

B.—The Person.

9 The body and clothing should be kept scrupulously clean. Baths should be taken daily. Persons in delicate health should bathe in warm water in preference to cold.

10. The food should be simple, nourishing and of good quality and should be freshly cooked. It should be eaten as soon after it has been cooked as is possible, and after the hands and feet have been well washed and the mouth rinsed freely with fresh water.

11 All articles of food and drink should be kept suitably covered to prevent access to flies and dust.

12. Food which has become cold or stale, and all indigestible articles should be avoided.

13. All raw vegetables or leaves, over ripe or under ripe fruits likely to cause diarrhœa should be avoided. They should never be eaten unless they have been cooked. Salt should be used with the diet in sufficient quantities. Aerid drinks such as lemon squash are useful as a preventive.

14. Bazaar sweets and similar cooked or uncooked articles of food sold by hawkers should not be eaten. Milk, buttermilk and vegetables obtained from places where cholera is prevalent should be looked upon with suspicion and should be rejected unless they have been well boiled or cooked.

15. All water for domestic use should be obtained from the best possible source under the advice of the health authorities. It should be boiled for at least 15 minutes and placed in a clean pot suitably covered; and it should be protected from exposure and dirty hands and vessels should not be dipped into it. No water other than that which has been well-boiled and cooled should be used for drinking, cooking purposes or for cleansing vessels, plates, etc.

16. Drastic purgatives should be avoided when cholera is prevalent.

17. Any tendency to diarrhœa should at once be checked by appropriate treatment under medical advice. Persons who have had more than two loose motions in 24 hours should immediately apply to the village headman or the nearest medical practitioner or the Cholera Inspector for advice and treatment.

18. Drugs containing opium and its alkaloids should be strictly avoided especially at the onset of diarrhœa.

19. Excessive drinking, irregular meals, late hours, exposure to wet and cold and everything tending to produce bodily fatigue should be avoided.

20. Panic at times of cholera outbreaks is to be avoided and should be overcome by every means possible. People should be encouraged to face the outbreak and to help individually and communally in its early suppression. All exaggerated accounts of the disease should be prevented.

21. Every person and especially those who have been in contact with cases of cholera, should seek at once preventive inoculation. The pain or inconvenience is trivial compared to the protection afforded.

22. Every case of cholera or severe diarrhœa should be reported forthwith to the village headman (or in his absence to the karnam) and local medical officer, if any, in order that the necessary preventive measures may be adopted without delay.

C—Precautions to be adopted when there is cholera in a house.

23. Every fresh attack of cholera or acute diarrhœa should be notified by the householder or the medical attendant to the village headman (or in his absence to the karnam) and local medical officer, if any.

24. In his own interest the patient should be removed with the least possible delay to an isolation hospital if one is available within a reasonable distance.

If this cannot be done,

(1) he should be isolated in the best ventilated apartment or room in the house;

(2) all superfluous bedding and clothing should be removed;

(3) all vomit and excreta should be carefully collected in a chatty containing cow dung or paddy husk mixed with a little diesel or kerosene-oil and should be burned without delay. This is the surest means of destroying the millions of cholera bacilli contained in them. Burial of infective matter should as far as possible be avoided, but where unavoidable, it should be done far away from human habitations and drinking water sources;

(4) rags and clothing soiled by vomit and excreta should be similarly burned;

(5) clothing and other articles of value brought in contact with the patient should be soaked in cresol lotion for half an hour and then boiled in water for fifteen minutes and dried in the open sun. They should on no account be washed in or near a source of water-supply or be sent to the dhoby until they have been well disinfected;

(6) if any discharges are voided on the ground, straw should be burnt on the affected spot and the spot itself well flushed in cresol lotion;

(7) not more than one person should be allowed to attend on the patient. No relatives, friends, or visitors should be permitted to enter the sick room;

(8) no one should eat, drink or chew in the sick room. On leaving the room they should wash their hands in disinfectant lotion and rinse their mouths freely with fresh boiled water;

(9) utensils, cups, plates and similar articles which have been used in the sick room should not be put to general domestic use unless and until they have first been placed in disinfecting lotion and then in boiling water for at least fifteen minutes;

(10) efficient medical treatment should be obtained with the least possible delay. The earlier the treatment is begun, the greater are the chances of recovery and the less are the risks of the spread of disease;

(11) the whole house and the patient's room in particular with all its contents should be thoroughly disinfected. The house walls should be lime-washed after the patient's recovery or death;

(12) no feast and feasts nor congregation of guests as part of the funeral ceremonies in the event of the case proving fatal should be permitted.

25. The village headman shall carry out the duties imposed on him by the Village Officers Manual, departmental orders and regulations and shall render every possible assistance to the health authorities in carrying out these instructions.

26. The officers of the Medical and Public Health departments shall, in carrying out the preventive measures, enlist the co-operation of the villagers by means of lectures, magic lantern demonstrations and other modes of propaganda.

ANNUAL CONVOCATION, AUGUST 1932.

A convocation for conferring degrees and titles and for the award of diplomas will be held in the Senate House on Thursday, the 4th August 1932.

Applications from candidates for degrees, titles or diplomas in the prescribed form must be made so as *to reach the Registrar not later than* Tuesday, the 19th July 1932. Printed forms of application for the purpose can be obtained from the office of the Registrar on application made in person or by post. *Special* forms of application are available for candidates taking their *degrees in absentia*, and for those taking the M.A. Degree. Candidates are therefore requested to specify the degree which they desire to take at the convocation. Every candidate is at liberty to take his degree either in person or *in absentia*.

DIPLOMA FEE FOR TAKING DEGREE AT A CONVOCATION EITHER IN PERSON OR IN *absentia* IS RS. 3.

The fee for a degree *in absentia* other than M.A. is Rs. 10.

The fee for the M.A. Degree in *person* is Rs. 25

The fee for the M.A. Degree in *absentia* is Rs. 35.

The fees referred to above should be paid into the Imperial Bank of India, Madras, or into any one of the Government treasuries or branches of the Imperial Bank of India in the mofussil, and the receipt therefor submitted to this office with the application for admission to convocation, and in the case of those residing outside this Presidency, the fees should be sent to the Imperial Bank of India, Madras, and the receipt therefor sent to the Registrar.

Applications not prepared in the prescribed form, or defective in any particular, or received after the prescribed date, will not be accepted. Candidates are advised, as a safeguard against the miscarriage or non-delivery of applications, to submit the same SOME EARLIER THAN THE PRESCRIBED DATE. Enquiries from candidates as to the receipt of their applications in the office of the Registrar will not receive attention. *Each application, if accompanied by an addressed post card, will, however, be acknowledged by the return of the post card, with the University stamp duly impressed thereon.*

Cards of admission to the convocation will be issued on Saturday, the 30th July 1932 to the address given in the application form. Candidates, besides giving their permanent address, MUST ALSO GIVE THE ADDRESS IN MADRAS, OR IN THE MUFASSAL TO WHICH THESE TICKETS OF ADMISSION SHOULD BE DESPATCHED. Candidates for degrees, titles or diplomas who are not in receipt of the cards of admission are requested to communicate the fact *promptly* to the Registrar.

Candidates for degrees, titles or diplomas are requested to be in attendance at the Senate House *not later than* 8-30 p.m. They are required by the regulations to wear the correct gowns and hoods pertaining to their respective degrees.

THE RAMARATNANGAR PRIZE, 1934.

It is hereby notified that the special subjects selected for the prize to be awarded in 1934, and which must be in Telugu, are—

One of the following :—

(1) Adaptability and survival of the fittest.

(2) Manufacture of metals in India.

(3) Manufacture of sugar—methods now adopted in the sugar-manufacturing countries of the world.

(4) The place of superstitions in the religions of the world.

(5) Vedic India.

The following particulars must be noted by the intending competitors :—

(1) *Method of treatment.*—The treatment must be non-technical as far as possible and at the same time scientific. To facilitate verification, references must be given for all authorities cited.

(2) *Style.*—The style must be simple, unaffected and grammatical. Where technical words are used, their English equivalents should be given within brackets. Special attention must be paid to clearness of exposition as the object of the endowment is to popularize scientific knowledge.

(3) *Length of the work.*—The work, if printed, should cover not less than 100 pages octavo and not exceed 120 pages. This does not include notes and references to authorities and sources.

All competitors should submit their productions so as to be received by the Registrar *not later than the 1st April* 1934. The work should have been prepared solely for the purpose of competing for the prize and should not have been published in any manner previous to submission. Each competitor for the prize must forward with his essay or thesis a declaration that the above conditions have been observed.

All essays and theses for University prizes must be forwarded to the Registrar on or before the prescribed date, by registered post. No essay or thesis shall bear upon it the name of the competitor or anything whereby his identity can be ascertained by the persons to whom it is to be submitted for examination. Each essay or thesis for a University prize shall be headed by a motto or a *nom-de-plume* selected by the competitor and shall be accompanied by a sealed cover bearing on the outside the competitor's motto or *nom-de-plume* and containing his name, designation and address and a signed declaration that the essay or thesis has been prepared solely for the purpose of competing for the prize and has not in any manner been previously published. Essays or theses may be printed, typewritten, lithographed or written (but not in the competitor's own hand).

Further particulars regarding the prize will be found in Volume II of the University Calendar.

OFFICIAL ADVERTISEMENTS.

TENDER FOR THE SUPPLY OF BOOKS, PERIODICALS AND NEWSPAPERS, ETC., PUBLISHED OUT OF INDIA.

SEALED tenders will be received by the Deputy Secretary to the Government of Madras, Finance Department, at Stonehouse Hill, Ootacamund, up to 5 p.m on Saturday, the 25th June 1932 for the supply to Government offices in the Madras Presidency of books, periodicals and newspapers, etc., published out of India, from 1st August 1932 to 31st July 1935. The rates tendered should be on the basis of the wholesale trade price allowed by the publishers plus such addition as the tenderer wishes to claim.

The successful tenderer will be required to execute an agreement for the due fulfilment of the contract.

The Government reserve to themselves the right of rejecting any tender without assigning any reasons.

S. A. VENKATARAMAN,
Deputy Secretary to Government.

Stonehouse Hill, 6th June 1932.

TENDER FOR THE WORK OF CARRYING MATERIALS BY GOVERNMENT AND PRIVATE BOATS FOR 1932-33

TENDERS will be received by the Executive Engineer, Godavari Headworks Division, at his office at Dowlaishwaram, up to 5 p.m. on 5th July 1932, for the work of "Carrying materials by Government and private boats for 1932-33 "

The tender should be in the prescribed form obtained from the Executive Engineer's Office.

2. Tenders must be submitted in sealed covers, and should be addressed to the Executive Engineer, Godavari Headworks Division, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be assigned with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly

authorized officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence

3. Each tenderer must pay, on earnest money, a sum of Rupees 500 (five hundred) into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of revenue deposits on behalf of the Executive Engineer of the Godavari Headworks Division and enclose with his tender the chalan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender at the expiration of two months from date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department Officers, save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denominations may be.

The earnest money will be retained in the case of the successful tenderer, and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division Office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender sign an agreement in the proper departmental form for the due fulfilment of the contract. He shall also, within seven days of such signing of the contract, make a security deposit of Rupees 500 (five hundred only), in one of the forms prescribed in the Madras Public Works Department Account Code which deposit together with the earnest money and withheld amounts will be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. Documents connected with the contract can be seen at any time between 11 a.m. and 5 p.m. on office days, in the Office of the Executive Engineer, Godavari Headworks Division. A copy of the set of contract documents can also be had on payment of Re. 1 (one) for each set.

6. The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the facts.

7. The tenderer should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in sums of three pies. The rates should be written both in words and figures and the units in words. The schedules accompanying the tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialing, dating and re-writing.

8. Tenders offering a percentage deduction from or increase in the current rates and those not submitted in proper form or in due time will be rejected. Rates for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, will be recognized; and if any such alterations are made, the tender will be void.

9. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

10. The successful tenderer should start work within fifteen days from the date of signing the contract and the latter will terminate on the 30th April 1933

11. No part of the contract shall be sublet without written permission of the Superintending Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

12. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

13 The Superintending Engineer reserves the right to reject any tender or all the tenders without assigning any reason therefor.

14. There are 30 Government punts and boats, etc., available, out of which a minimum number of 20 punts or boats will ordinarily be available for giving on hire to the conveyance contractor.

F. C. L. CLIFT,
Superintending Engineer, Dowlaishweram Circle.

Dowlaishweram, 2nd June 1932.

TENDER FOR FORMING KOMATLAPETA-KALYANA SINGAPUR ROAD.

TENDERS on K-1 or schedule contract system will be received by the undersigned at the office of the Executive Engineer, Koraput Division, Koraput, up to 4 p.m. on Thursday, the 30th June 1932, for "forming Komatlapeta-Kalyana Singapur Road—Collection of gravel and spreading and part consolidation of soling cost and metal in reach 6/0 to 16/0."

2. The tenders should be submitted in sealed covers, the name of the tenderer being noted on the cover and should be superscribed "Tender for forming Komatlapeta-Kalyana Singapur Road—Collection of gravel and spreading and part consolidation of soling cost and metal in reach 6/0 to 16/0" and should be addressed to the Executive Engineer, Koraput Division, Koraput. The covering letter with which the tender is to be submitted should be in the prescribed form P.W.D. V-49 obtainable free of cost from the office of the Executive Engineer, Koraput Division, Koraput.

3. (a) Each tender should be accompanied by a bank receipt or treasury chalan for Rs. 400 which should be paid on behalf of the Executive Engineer, Koraput Division, Koraput, into a branch of the Imperial Bank of India or a Government treasury or sub treasury within the jurisdiction of the Executive Engineer, Koraput Division, under the head "Revenue Deposits." The amount so deposited will be held as earnest money.

(b) In the case of parties whose tenders are not accepted, the earnest money will be refunded only on the authority of an order endorsed upon the original deposit receipt of the Treasury Officer by the Executive Engineer, Koraput Division, in whose favour the deposit is made. Amounts so deposited or refunded shall not pass through Divisional accounts.

(c) The parties should make their own arrangements to receive the payment.

(d) In exceptional cases where there are no treasuries or banks, the tenderers should deposit the earnest money in cash or in currency notes with the Executive Engineer, Koraput Division, and when currency notes are given, the tenderer should sign his name in full with date on the back of all the currency notes, whatever their denomination may be.

4. The Superintending Engineer, Waltair Circle, will reserve to himself the right of rejecting all or any of the tenders without assigning any reasons for so doing.

5. As soon as the acceptance of the tender is notified the successful tenderer will be required to deposit a further sum of Rs. 600 as in the manner specified in paragraph 3 (a) above which with the earnest money received will be held as security for the due fulfilment of the contract under the schedule contract system in accordance with the sanctioned plans and specifications.

6 The successful tenderer will also be required to sign an agreement in the proper departmental form (K-1 form) or P.W.D. V-50 for the due fulfilment of the contract under the schedule contract system.

7. Failure to comply with the conditions 5 and 6 above within fifteen days from the intimation of acceptance of the tender by the Executive Engineer will entail forfeiture of the earnest money.

8. The contract must not be sublet.

9. No reference should be made to the Public Works Department current schedule of rates or to the rates included in the estimate for this work. These documents are confidential and will not be available to the public.

10. If materials for use on the work are to be supplied by Government the fact is noted in the contract agreement and the price at which the particular material is to be supplied is clearly shown. Tenderers must accept the material at this price and should quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for those materials the charge to the party executing the work will remain as originally entered in the contract agreement.

11. If, at any time subsequent to the execution of the contract, Government materials other than those specified in the contract agreement are to be supplied to the contractor for use on

the work, they will be charged at the market rate prevailing at time of supply or stock issue rate, whichever is greater. No cartage or incidental charges will be borne by Government in connexion with the supply. The contractor will be informed in writing of this change and he should intimate in writing the rate which he demands for finished work in view of the fact that he is to use Government materials.

12. *No alterations to be made in the documents.*—No alteration which is made by the tenderer in the contract agreement, "the conditions of contract," "the drawings" or "the specification" will be recognised; and if corrections are made, the tender will be liable to rejection.

13. *Quantities in the schedule are only approximate.*—The quantities have been taken out for the purpose of arriving at an approximate cost of the work and are noted in Schedule A in which the tenderer enters his rates. But they do not necessarily indicate the actual amount of work to be done and are subject to alterations, omission, deductions or additions, as provided for in the "conditions"

14 *The schedule of rates payment will be made on the net measurement.*—The attention of tenderers is drawn to the note at the top of the "Schedule of rates and approximate quantities"—Schedule A. The rates the tenderer quotes are for finished work. This condition should not be lost sight of when quoting.

15 The rates, units of all items and totals of amounts on each page should be noted both in figures and words one below the other.

16 *Totals to be calculated by the tenderer.*—The "Schedule of rates" Schedule 'A' must be complete, that is, the approximate quantities must be multiplied by the rates quoted and the amount entered.

17. In the event of a tender being submitted by a firm, it must be signed separately and severally by each member thereof, or in the event of absence of any partner, it may be signed on his behalf by a person holding power of attorney authorizing him to do so.

18. The work should be completed and handed over to the Public Works Department fit for traffic before 1st June 1923 failing which a penalty of Rs. 10 per day will be levied and recovered from the contractor's outstanding amounts till the work is completed and handed over to the Public Works Department. The contractor will also forfeit the security of Rs. 1,000 deposited by him if he fails to so complete the work.

19. *If further information is required* the Executive Engineer, Kompat Division, will be pleased to give any further information to tenderers should they so require, but it must be clearly understood that tenders not received in order, and according to instructions, will be liable to rejection.

20. Seigniorage on materials should be borne by the contractor himself and the tendered rates should include for the same.

NOTE.—The tenderer should, at his own cost,—

(i) provide rods, pickets, ropes, gauges and labour required in setting out the work, and set out the work under the supervision of the Public Works Department;

(ii) provide sheds to keep materials and plant under cover and temporary sheds for labourers and coolies including repairs thereon till the works are completed;

(iii) supply all requisite temporary lights, danger lights, water cisterns and watchers for the same;

(iv) clean away all dirt and rubbish and supervise as materials and debris as they accumulate;

(v) supply all water required for work and workmen;

(vi) arrange for temporary diversions wherever necessary, and

(vii) provide his own tools and plant required for the work except steam roller which will be worked by the department. He should afford facilities to any other persons working including the department when consolidating with the steam roller.

ADDITIONAL CONDITIONS.

1. Work should be commenced from 6th mile and carried towards 16th mile. Gravel collection should be taken up first and completed and then spreading of soling stones, metal and gravel should be done. After the consolidation is over, the berms, embankments, clearing of boulders, etc., should be done and each operation should follow continuously.

2. On acceptance of his agreement the contractor will measure up and give a receipt for all materials already collected through other Agency and which are to be employed on the work.

SCHEDULE A.

Schedule of rates and approximate quantities

(a) The quantities here given are those upon which the approximate estimated cost of the work is based, but they are subject to alterations, omissions, deductions or additions as contained in the conditions of this contract and do not necessarily show the actual quantity of work to be done.

(b) It is to be expressly understood that the measured work is to be taken net (notwithstanding any custom or practice to the contrary) according to the actual quantities when in place and finished according to the drawings or as may be ordered from time to time by the Executive Engineer and the cost calculated by measurement or weight, at the respective prices, without any additional charge for any necessary or usual incidental work connected therewith. The rates quoted are for works in situ and complete in every respect.

(c) The totals of the amounts in the last column of each page of the schedule should be entered both in figures and words one below the other.
